

## Fixed Asset Management

[ BENEFITS ]

**Manage assets more effectively**

Quickly and accurately record, track, depreciate, and analyze your company's assets with minimal effort and tremendous flexibility using multiple features and powerful reporting tools.

**Save time and money**

Set up assets quickly and easily and use classes or account groups to save effort by setting defaults and making mass changes, such as retirement or depreciation, to large numbers of assets at the same time.

**Put your information to work**

Make changes to one or many assets easily and capture necessary asset data for tax or reporting purposes while performing depreciations, averaging, or comparisons across assets.

**Find the information you need**

Access the data you need with an intuitive graphical user interface and convenient one-button access to user-defined information or other critical data, including asset maintenance, purchase, lease, and book information.

**Make depreciation easy**

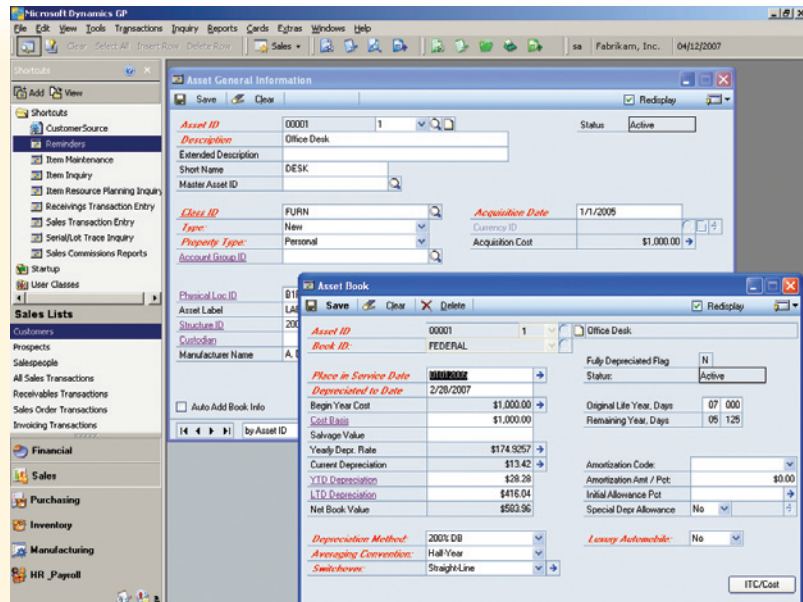

Manage asset depreciation with any of 16 depreciation methods, with the ability to back depreciation out, recalculate it, add additional depreciation, or project it ahead for any number of assets in your books.

**Fuel business precision**

Fixed Asset Management integrates seamlessly with Microsoft Dynamics GP, helping ensure business information is accurate and reducing the need to re-enter data into the system.

**Improve financial management for your business** by tracking, analyzing, and manipulating fixed assets to meet specific needs.

ENTER A RANGE OF ASSET INFORMATION, including acquisition date, cost, and physical location, as well as assign assets to multiple books for calculating depreciation.

The image shows the 'Book Compare Inquiry' window, which provides a side-by-side comparison of depreciation data for three asset books: INTERNAL, FEDERAL, and AMT. The data is organized into columns for each book, with rows for various depreciation metrics.

	INTERNAL	FEDERAL	AMT
Cost Basis	\$1,000.00	\$1,000.00	\$1,000.00
Salvage Value	\$0.00	\$0.00	\$0.00
YTD Depreciation	\$23.80	\$28.28	\$19.07
LTD Depreciation	\$305.52	\$416.04	\$232.82
Net Book Value	\$690.48	\$583.96	\$767.18
Place in Service Date	1/1/2005	1/1/2005	1/1/2005
Depri. Begin Date	12/31/2004	7/2/2005	7/2/2005
Depreciated to Date	2/28/2007	2/28/2007	2/28/2007
Original Life	7 Years 0 Days	7 Years 0 Days	10 Years 0 Days
Remaining Life	4 Years 306 Days	5 Years 125 Days	8 Years 124 Days
Depreciation Method	Straight-Line On	200%: DB	150%: DB
Averaging Convention	Full Period	Half-Year	Half-Year
Switchover	No Switch	Straight-Line	Straight-Line
Luxury Automobile	No	No	No

COMPARE ASSET DEPRECIATION for up to three books at a time.

[ FEATURES OVERVIEW ]

<b>Easy Asset Setup</b>	Create and manage an unlimited number of books of assets for each company, including corporate, federal tax, alternative minimum tax, and more.
<b>Intuitive Interface</b>	Find asset information using an intuitive graphical user interface with one-button access to maintenance, purchase, insurance, lease, book, or other critical information.
<b>Customized Setup</b>	Add up to 15 user-defined fields to track any industry-specific information that you need, set defaults and formats to meet business needs, and hide or display fields as needed.
<b>Asset Tracking</b>	Track comprehensive information about assets using standard or user-defined fields, in multiple quantities or by an asset component like master ID number or asset suffix.
<b>Asset Classes</b>	Define asset classes to set defaults for a group of assets, as well as set characteristics such as depreciation or asset retirement for multiple assets at one time.
<b>Averaging Conventions</b>	Utilize a variety of averaging conventions for managing assets including averaging by half year, mid quarter, full month, full period, full year, and others.
<b>Depreciation Management</b>	Use any of 16 depreciation methods such as straight line, remaining life, and amortization, and forecast your depreciation expenses for budgetary work.
<b>Asset Review</b>	View and analyze in-depth information about assets on-screen including asset account, lease, insurance, or user data, or drill down to the originating transaction to look at greater detail.
<b>Asset Manipulation</b>	Manage assets with powerful tools for adding or changing assets such as retirement, transferals, and making mass changes to multiple assets.
<b>Reporting Flexibility</b>	Share information with a wide variety of standard reports such as depreciation ledgers, property transfer, inventory list, and asset retirements. Create custom reports using SmartLists, Report Writer, and Crystal Reports in Microsoft Dynamics GP.
<b>Property Management</b>	Manage physical inventory and asset movement with location IDs that reconcile an asset's actual physical location with the recorded physical location.
<b>Integration</b>	Update the General Ledger automatically with Fixed Asset Management information and integrate with asset information from Purchase Order Processing and Payables Management in Microsoft Dynamics GP.
